

IENOVA ANNOUNCES ITS INCLUSION IN THE IPC SUSTAINABILITY INDEX OF THE MEXICAN STOCK EXCHANGE.

Mexico City, February 3, 2016 – Infraestructura Energética Nova, S.A.B. de C.V., “**IEnova**”, informs that it has been included, for the second year in the row, in the 2016 Sustainability Price and Quotation Index (*Índice de Precios y Cotizaciones (IPC Sustentable)*) of the Mexican Stock Exchange (“**BMV**”).

It is worth mentioning that in the IPC Sustainable’s evaluation for 2016, IEnova increased its grading by 23% compared to the previous year.

The foregoing shows IEnova’s commitment to a continued improvement and to the implementation of high standards of operation, protection and conservation of the environment, its practices with respect to labor, corporate governance and social commitment with the communities in which it operates.

The IPC Sustainability Index was created on December 2011, and is formed by companies listed in the BMV, with remarkable performance in matters related to environmental management, social responsibility and corporate governance.

This acknowledgement is in line with IEnova’s commitment to develop energy infrastructure projects that contribute to the growth and promote the development, competitiveness and industrialization of our country in a sustainable manner.
