

IENOVA ANNOUNCES THE RESULTS OF THE BIDDING PROCESS FOR THE RENDERING OF NATURAL GAS TRANSPORTATION SERVICES FOR THE COMISIÓN FEDERAL DE ELECTRICIDAD IN THE SEGMENT VILLA DE REYES – AGUASCALIENTES - GUADALAJARA.

Mexico City, March 30, 2016 – Infraestructura Energética Nova, S.A.B. de C.V., “**IEnova**”, informs that yesterday, Comisión Federal de Electricidad (“**CFE**”) announced the decision of the bidding process for the rendering of natural gas transportation services in the segment Villa de Reyes – Aguascalientes – Guadalajara (the “**Bidding Process**”), in which it participated through one of its subsidiaries.

IEnova’s technical proposal was approved in the Bidding Process, in as much as CFE qualified it as “in compliance” (“*cumple*”). Yesterday, CFE announced that IEnova’s economic proposal was rejected; arguing that it did not satisfy the requirements of the Bidding Process.

Regardless the fact that IEnova’s economical proposal in the Process was not the best offer, IEnova is not satisfied with the rejection of its proposal as it considers it solvent according to the Bidding Process’ rules; therefore it will evaluate and, if convenient, will exercise the administrative and legal actions available.
