

27 March 2013

By means of Ruling RES/115/2013 of March 27, 2013, the Energy Regulating Commission considered admissible considering as fulfilled the condition subsequent that the permission for the export of electricity granted to Energía Sierra Juárez, S. de R.L. de C.V., an IEnova subsidiary company, which is developing the project for a windfarm in the mountain range known as Sierra de Juárez in the state of Baja California. The above, because the Federal Electricity Commission issued a favorable opinion for the performance of the project. The above condition having been fulfilled, permit E/932/EXP/2012 granted to the IEnova subsidiary to export electricity with a total capacity of 156 MW is in full force and effect.
