

IENOVA ANNOUNCES ITS PARTICIPATION IN THE BIDDING PROCESS FOR THE CONSTRUCTION AND OPERATION OF A COMPRESSION STATION IN SOTO LA MARINA, TAMAULIPAS.

Mexico, D.F., July 15, 2013 – Infraestructura Energética Nova, S.A.B. de C.V., “**IEnova**”, informs that in connection with the call issued by the *Comisión Federal de Electricidad* (“**CFE**”), to participate in the bidding process related to the construction and operation of a compression station in the delivery and receipt piggy trap known as “Las Tunas” (the “**Soto La Marina Compression Station**”), in order to increase the transport capacity of the San Fernando 48” pipeline, located at Soto La Marina, Tamaulipas, today, through a subsidiary, IEnova submitted a proposal to participate in such bidding process.

Participating in the bidding process does not guarantee that IEnova will be awarded with the Project.

In case of winning the bidding process, IEnova, through its subsidiary, would be responsible of implementing the Project, including obtaining the permits, acquiring land and rights of way, the engineering, procurement, construction, financing, operation and maintenance.

This initiative is consistent with IEnova’s strong commitment with the development of infrastructure in the country.
