

IENOVA ANNOUNCES RESOLUTION OF CONFLICT WITH THE MUNICIPALITY OF ENSENADA, BAJA CALIFORNIA.

Mexico City, May 14, 2014 - Infraestructura Energética Nova, S.A.B. de C.V., "**IEnova**", in connection with the complaint filed by Ramón Eugenio Sánchez Ritchie, in February 2011, before the Urban Control Direction ("**DCU**") of the Municipality of Ensenada, Baja California, Mexico, where the invalidity of land use permits and construction given to the liquefied natural gas terminal in 2003 and 2004, respectively, was alleged, hereby informs the following:

- (i) Today it was notified by the competent authority, through official communication dated April 28, 2014, that the Municipality of Ensenada declared itself incompetent to attend to, process, continue processing and eventually getting to resolve the procedure started in 2011 by Ramón Eugenio Sánchez Ritchie.
- (ii) In view of the above, the administrative authority has decided to annul all proceedings in the administrative procedure, including the closure order, and ordered the filing of the record as a duly completed case.
- (iii) The official communication mentioned still may be appealed by Ramón Eugenio Sánchez Ritchie.
